Who are we?

1220X was founded in the fall of 2025 as the VEX Robotics "All-County" Team of Prince William County Schools.

Our goal is simple. Give students the necessary knowledge and skills to navigate and thrive in the modern STEM landscape.

Our success in the Vex Robotics Competition last season has put us in a unique position. Being a top team in Virginia with limited funding wasn't easy, but with your help, RoboRedux can achieve even greater heights this coming season.

What We Do

- Utilize industry standard software 3D modeling and drawing software including Fusion 360 and AutoCAD.
- Program using C++ to autonomously navigate the field and use sensors to respond to events in real time.
- Manage part inventories, budgets, all while adhering to a strict schedule.
- Develop a professional engineering notebook for a panel of judges.
- Manage social media accounts, create videos, and mentor/volunteer to inspire and teach younger students.

By the Numbers

Payment Details

Checks can be made out to Gainesville High School.

Checks will be provided in-person to a RoboRedux team member. If we cannot receive one currently, a team member will return to pick it up.

As Prince William County Schools is a non-profit, you may be eligible to take a tax-deduction for your donation. Parents will provide the tax documentation at the time of check pick-up.

Thank You.

Community Bake Sale

On behalf of the team and our families, thank you for supporting our passion for STEM.

1220X RoboRedux is looking forward to our next competition season, and it's companies like you that help make this student-led robotics team possible.

We are happy to help with any questions or inquiries you may have! We also welcome sponsorship inquiries.
